<sup>(1)</sup> Country List Price. This user is valid with SBO Indirect Access User (Add-On), SBO Limited User and SBO Professional User.

<sup>(2)</sup> The Trimergo B2 Web Timesheet can only be used in combination with Trimergo B2 Project en MRO

<sup>(3)</sup> Trimergo B2 Implementation Consultancy Pack is mandatory for non certified partners and contains 14 hours of remote implementation assistance at four critical milestones in the implementation period. See separate fact sheet for more details.

#### Volume discount

Trimergo follows the SAP guidelines regarding volume discount. This means the same % with the same money volume as for SBO.

#### Trimergo B2 with SBO Indirect Access user:

Trimergo B2 will always be delivered full-function. The limitations with the different SBO users are limitations imposed by SAP. In the case of a SBO Indirect Access User, they will have the full-function of Trimergo B2, but their ability to open certain SBO documents will be limited. For example, they will be able to create an SBO purchase order from within Trimergo B2, but will not be able to open that order from an indirect access user. Similar limitations are imposed by other SBO Limited Users.
